EDUCATION

Lahore Garrison University

Lahore, Pakistan

Bachelor of Computer Science – GPA:3.54

SKILLS SUMMARY

- **Languages:** Python, C++, SQL, HTML, CSS
 - **Tools:** Power Bi, MS Office, Canva, Figma, Axure
 - **Platforms:** N8N, Visual Studio Code, SQL Server, Emu8086, Arduino IDE
 - **Soft Skills:** Graphic Designing, Excellent Communication
-

Projects

- **Banking Application**
Developed a full-stack banking web built with HTML, PHP and SQL featuring user authentication and database integration.
 - **Freelancers Marketplace**
Built a responsive web-based marketplace enabling secure user registration, service postings, and real-time interactions between clients and freelancers.
 - **Open-Source Navigator**
Developed an automation workflow using **n8n** that fetches open-source projects from GitHub, processes project metadata through a **Large Language Model**, and intelligently recommends projects to users based on their known programming languages and skill sets.
 - **Lexical Analyzer**
Designed and implemented a lexical analyzer to tokenize and identify keywords, operators and identifiers. Strengthened my understanding of compiler phases, pattern matching and language processing concepts.
-

Courses and Certifications

- **C++ Object-Oriented Programming Principles**
- **Multi-Agent AI Systems Development with Crew AI**
- **PHP Fundamentals for Web Development**
- **Version Control with Git and GitHub**
- **Practical SQL for Database Querying**
- **Crash Course on Python**
