SUMMARY

I am a detail-oriented and motivated Software Quality Assurance Enthusiast with hands-on experience in Software Testing and QA workflows. My expertise encompasses manual, regression, UI, and API testing, developed through academic and project-based work. I possess strong communication, analytical, and problem-solving skills, paired with a passion for learning and delivering high-quality software solutions.

PROJECTS & EXPERIENCE

SQA Course Project – WhatsApp Testing

Lahore Garrison University

02/2026 – 06/2026 • Lahore, Pakistan

Academic project in Software Quality Assurance

- Executed 50 manual test cases across Mobile, Desktop, and Web platforms, achieving an 88% pass rate (44/50)
- Validated messaging, media sharing, calls, groups, and cross-platform synchronization features
- Produced comprehensive test documentation including test cases, bug reports, and test summary reports

“AttriFact” – Module Testing & Validation

Freelancing

Remote

Module Testing & Validation for ‘AttriFact’ AI/ML Project

- Designed and executed functional, regression, UI, and API test cases using Jira and Postman
- Performed defect tracking and validation throughout the SDLC process
- Verified application workflows and API functionality to ensure system reliability and quality

QA Testing Project – “Digital Karobar” Application

Freelancing

Remote

QA Testing Project for ‘Digital Karobar’ Application

- Performed unit testing, debugging, and validation of AI/ML modules to ensure system accuracy and reliability
- Identified and resolved module-level defects, improving overall software stability
- Validated functional requirements and testing outcomes through structured quality assurance practices

EDUCATION

Bachelor of Computer Science

Lahore Garrison University

Lahore, Pakistan

GPA 3.54 / 4.0

KEY ACHIEVEMENTS

Software Quality Assurance Excellence

Successfully executed comprehensive testing for diverse software applications, ensuring reliability and quality.

SKILLS

- Manual Testing
- Functional Testing
- Regression Testing
- Jira
- Trello
- Postman
- Git & GitHub
- MS Office
- Black Box Testing
- Selenium
- Unit Testing
- QA Documentation
- Bug Reporting & Tracking
- Test Case Writing
- Software Documentation
- Problem Solving

TRAINING / COURSES

SQA Course

Course on Software Quality Assurance, focusing on practical aspects including manual testing and validation.
